

# YOUR NEEDS ARE UNIQUE, SO ARE OUR BIOPRINTING SOLUTIONS

## FLEXIBILITY

**Innovative** technology to accompany the evolving field of biofabrication  
**Convergence** of bioprinting and electrospinning for a wide range of applications  
**Cutting-edge** yet user-friendly software suite to create custom tissues  
**Compatible** with an extensive portfolio of bioinks

## MODULARITY

**11 printhead** technologies for a personalized configuration of your device  
**Advanced** accessories (e.g. for photoinitiated crosslinking; particles nebulization)  
**Biomanufacturing** under sterile and aseptic conditions

## CUSTOMIZATION

**Biostimulation** (mechanical; electrical; optical; hydrodynamic)  
**Custom** software, labware, and hardware tools

WE SUPPORT YOUR RESEARCH FROM  
THE LAB TO THE CLINIC
